“ In all the years I have known Bernie, she was always a bright light and joy wherever she was! She had a gift to make every situation better because she valued the worth of each person. This was especially true with her work with Special needs students. I had the honor to work with her one summer. The students absolutely loved her and that is the summer we became friends and she will remain my cherished friend into eternity. My heartfelt sympathy to Eddie and all her beloved family, Arlene Ehlers
