MR

“ I met Duane in 1989 while we were working as managers at Harbor Freight Tool. We developed a friendship over our interest in computing and electronics. We talked and visited frequently sharing our thoughts and ideas. I left Harbor Freight in 1995 and started a new career as a long haul truck driver and was able to stop and visit Duane in Bakersfield when I was in the area. We shared many thoughts and ideas, always enjoying each other's company. Duane helped many people with their computer issues and problems. He really was a kind and special friend that I will never forget. You are a truly special person.”

CS

“ At last you make your journey to the place most fitting - it is not with sadness that we bid you goodbye. You were devoted to CM, we all knew that.
