MM

“ *Richard was a friend of mine in high school but we took different paths in life and lost track of one another. But regardless of the passage of time, I always considered him to be a friend and am saddened to hear of his passing. We had a lot of fun back in those days, and the memories of those times always bring a smile to my face. To Rich's family and friends, please accept my condolences. Yours in sympathy, Mark Miller*
