“ Hey T.... I've been around the family for 26 yrs now and we've had ups and down. I actually started hanging around the family more when I was 15 yrs old because how fun you and Jim were..... a lot like me you've always been a kid at heart, but was always the backbone of the family. I have always admired how you always had your families back..... right or wrong and without hesitation you was always there and had your families back. No matter what the problem was or who it was against, you never backed down and If one of your kids was hurting you made sure that the other party felt your wrath..... I felt it every time..... hahaha! Without a doubt I know that you will be watching over your family! I just want you to know that I'll be here for your family no matter what and that I got your back..... I love you! Thank you for always being there..... Love, Earl
