“ I met Willie in 1978, through music of course. Willie and I ended up playing gigs together over the years. We got to know Willie and Martha and became close to them. Willie and Martha started attending the Sunshine church where my parents were pastors. They became close with my Mom & Dad as well. Over the years we played countless gigs together. I always loved playing with Willie, not just because I enjoyed his musical talent but because he was such a wonderful man. The Lord must've needed a steel guitar for the Angel Band. God bless Martha and the rest of the Bennett family.
